Forecast for Tuesday 20 Aug 2024

Weather: A band of showery rain pushing eastwards across the park at first, before clearing to brighter and sunnier skies from the west. Chance of a brief passing shower during the afternoon but most places remaining dry.

Chance of cloud-free hill tops above 600m: 50% at first and then 80% from mid-morning.

Low cloud and visibility: Periods of cloud above 500-600m until mid-morning, then patches above 800m for the rest of the day. Locally poor visibility in cloud at first but soon becoming widely very good or excellent with superb air clarity allowing for far-reaching views of distant hills and landmarks.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

After a poor start conditions will improve, with strong late summer sunshine, UV levels are still high so skin protection is a necessity. It will also be fairly breezy particularly near and across summits which will create for some more challenging walking conditions.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Tue 20 Aug 2024	9.4mm	9.4mm	9.6mm

Forecast for Wednesday 21 Aug 2024

Weather: Settled overnight with clear skies across the park, leading to a dry and bright start to Wednesday. However cloud will building from the west throughout the day. Perhaps with some outbreaks of light rain and drizzle setting from late afternoon and early evening. Winds will strengthen becoming strong and gusty overnight.

Maximum wind: Southwesterly 25-30 mph, gusting to 35-40 mph later.

Chance of cloud-free hill tops 600m: 70% throughout the day, but decreasing to 40% from late afternoon.

Low cloud and visibility: Cloud bases mostly above the level of the summits all day, but descending to 600-700 meters from late afternoon. Very good or excellent visibility with superb air clarity allowing for far-reaching views of distant hills and landmarks. Visibilities will deteriorate throughout the afternoon, becoming poor in during the evening across the summits.

Temperature: **Valleys:** Plus 12 Celsius rising to plus 20 Celsius.
At 600m: Plus 12 Celsius.
Freezing level: Well above the summits.
